

Resume of Brent J. Craig

Focus Puller

Brent J. Craig is one of Canada's top commercial and music video Focus Pullers. He always brings an enthusiastic yet easy-going attitude to set and works with quiet confidence and efficiency. He is not afraid to try new things and work in innovative ways. With 15 years of experience, his technical competence and skills are extensive. Brent has a real understanding of commercial sensibilities and often decides appropriate focus based on effective eye-flow and visual rhythms rather than the traditional rules of dramatic production. In music videos, Brent knows what to do when the director says "do something cool here" and is appreciated by editors for his timing and creativity. Not afraid to grab a Bolex or shoot B Camera, he has creative shooting skills as well and loves to "paint" with filters. Brent plays nicely with others, and is often chosen by production managers to work with out-of-town shooters because of his adaptability. Brent is also a big 'ol computer geek and is nice to have around to get your laptop online or troubleshoot technical stuff. Overall, Brent is a well-rounded, competent and accurate focus puller and an asset to any camera team.
